Mr. George Kramer, President  
University of Florida Student Government  
305 J. Wayne Reitz Union  
Campus

September 29, 2000

Dear Mr. Kramer ,

The Committee on Alcohol and Other Drug Education and Policy supports the efforts of Student Government and the Regional Transit System in continuing the funding and implementation of the Later Gator bus service Thursday through Saturday nights. This committee recognizes the importance of safe transportation for students, especially later in the evening. Continuation of this program and the possible expansion to a greater part of campus and the southwest apartment areas would obviously provide even more students with a safe option for transportation. Our committee encourages Student Government to continue supporting the Later Gator service and to strongly consider its expansion to meet the needs of off campus students.

Sincerely,

Lohse Beeland, Chair  
Committee on Alcohol and Other Drug Education Policy

cc: Dean Julie Sina
