Erin Gannon

Since arriving at the University of Florida, I have become involved in a few different organizations on campus. I was previously the Community Involvement chair for the Public Leadership Society before being elected Secretary and now President for the upcoming school year. I have served on the executive board of Phi Alpha Delta, a pre-professional law fraternity, for three semesters and am a campus representative for Growth International Volunteer Excursions. My current career goal is to work in the field of community development to improve both local and foreign communities. I chose to serve on the Student Advisory Board because of its goal to get students involved. Students know what it takes to get other students involved on campus as well as in the community and I want to help in this effort. The Student Advisory board will help me gain insight on the needs of our local community, which is directly related to the field of community development. I believe this experience will help me to become more successful in and knowledgeable about my future career while improving my collaborative and communicative skills.
